2012 - 2018

## SKILLS

- HTML
- CSS
- JavaScript
- ReactJS
- Tailwind
- Bootstrap
- GitHub
- SQL

## PROFILE

I am a passionate and detail-oriented Front-End Developer who focuses on building responsive and user-friendly websites. I have skills in HTML, CSS, Bootstrap, Tailwind, JavaScript, and React, and I enjoy turning designs into clear and efficient code. With a good understanding of front-end technologies and a strong sense of design, I am excited to use my skills to create smooth web experiences. I'm looking for a chance to work with a team where I can grow and contribute as a developer.

## PROJECT

### ● Property Booking Website

<https://bookahome.netlify.app/>

I developed a fully responsive property booking website using HTML, CSS, and JavaScript for a smooth user experience on all devices. The site features an intuitive property listing with search filters, allowing users to easily find and explore available properties. I also optimized the website for faster load times and overall performance.

### ● Portfolio Website

<https://bookahome.netlify.app/>

I developed a fully responsive portfolio website using HTML, CSS, and JavaScript to ensure a smooth user experience on all devices. The site showcases my work through an intuitive layout and includes various sections for easy navigation. I optimized the website for faster load times and overall performance.

### ● Maharashtra Tourism

<https://bookahome.netlify.app/>

I developed a fully responsive Maharashtra tourism website using HTML, CSS, and JavaScript to provide a smooth user experience on all devices. The site features an intuitive layout that showcases various tourist destinations and attractions in Maharashtra, making it easy for users to explore. I optimized the website for faster load times and overall performance.
